## The Right Approach at the Right Time

<table>
<thead>
<tr>
<th>Step 1: Return Safely</th>
<th>Suggested Frequency</th>
<th>Methods Employed</th>
<th>Team Members Deployed</th>
<th>Potential Supplies and Equipment</th>
</tr>
</thead>
</table>
| **Build trust that it’s safe to return to your space** | Intervals based on timing of reentry | • Reentry site assessment(s)  
• Plan return to work strategy  
• Facility checklists  
• New workforce protocols (i.e. social distancing procedures, health screening, PPE requirements)  
• Reentry disinfection service using EPA-registered disinfectants | Certified disinfection specialists | • Touchless fixtures, dispensers & door openers  
• Centralized trash receptacles  
• Sensor technologies  
• Hand-sanitizing stations (based on availability)  
• Disinfecting wipes for occupants (based on availability) |

<table>
<thead>
<tr>
<th>Step 2: High Touch Frequency</th>
<th>Suggested Frequency</th>
<th>Methods Employed</th>
<th>Team Members Deployed</th>
<th>Potential Supplies and Equipment</th>
</tr>
</thead>
</table>
| **Instill confidence that a recurring cleaning and disinfection program is in place** | Intervals range from hourly to daily to help curb the spread of pathogens | • Site specific SOW for each facility type based on occupancy levels  
• Increased frequency of disinfection of all high touch point areas in facility | Certified disinfection specialists | • Occupant Reentry Communication Kits  
• EPA-registered disinfectants  
• Proper PPE  
• Microfiber program |

<table>
<thead>
<tr>
<th>Step 3: Disinfect Broadly</th>
<th>Suggested Frequency</th>
<th>Methods Employed</th>
<th>Team Members Deployed</th>
<th>Potential Supplies and Equipment</th>
</tr>
</thead>
</table>
| **A broader disinfection process to help safeguard your full facility beyond high touch point cleaning. Occupants feel secure their environment is reset to even higher standards** | Intervals range from nightly to quarterly based on business needs | • Full building / large area disinfection using electrostatic spraying with stronger disinfectants | Certified disinfection specialists | • Electrostatic sprayers  
• Hospital grade disinfectants with faster kill time and broader pathogen spectrum  
Continued product testing:  
• Testing and validation  
• UV devices and UVC lighting  
• Antimicrobial and environmental coating solutions  
• Robotic disinfection |
