Reasons to believe

Facility management is a broad industry, presenting multiple opportunities for connection, innovation and partnership.

IFMA is a Recognized International Symbol for FM

I have worked in facility management in various countries, spoken at a number of international FM conferences, and regardless of where I have been, the banner of IFMA is widely recognized and respected. It brings a common language to a global platform of FM professionals. IFMA will also make a way for members who want to engage it’s mission to advance the professional discipline of facility management worldwide.

- John Ringness, SFP, MRICS, IFMA Member and FM Thought Leader since the early 1990’s

IFMA is My First Stop when Hunting for Solutions

IFMA supports collaboration and partnership and those are two keys in being successful at almost anything you do. The people you meet through IFMA can share ideas and solutions to the everyday issues we experience in our profession. Whether it is a site parking issue, introducing a new work order tool or identifying a key vendor to perform work, there is always someone you can network with to identify a best practice or lead vendor instead of having to start from ground zero.

- Marcella Garwood, CFM, IFMA Member and FM Leader since 2002

IFMA is A True Asset for FM’s Worldwide

I find value of IFMA in the networking and plethora of resources that help me find solutions to the FM challenges I face. It’s comforting to know that the FM professionals I meet through IFMA are international peers and help me find solutions, improve processes, decrease operational expenses, improve health and safety and overall maximize your facilities’ potentials. I find IFMA to be a “must” for any FM out there.

- Carlos Rodríguez, Santo Domingo, Dominican Republic, IFMA Member since 2016
IFMA Opens Doors for Sharing Information and Ideas

Joining IFMA is of enormous benefit for me and my FM career. I participate in industry networking, learning through facility visiting, conferences and seminars, & encounter new FM products and innovative solutions sharing. Usually FMs are “shy” and have fewer chances to meet others in the industry but IFMA allows me to gain lots of exposure to connect with limitless FM professionals all over the world. By attending the prestigious World Workplace Asia, I opened doors to greater knowledge after hearing the speakers and meeting peers.

- Kuan Hwee James NG, Singapore, China

Newer IFMA Members See the Value of Belonging Right Away

When I joined IFMA, it turned out to be a great decision! During my first few months, I attended a conference where I met several terrific new vendors, as well as a number of other FMs and IFMA members. I know all of these contacts can help me in my career goals and FM projects. In fact, I know that being an IFMA member has already helped my career and my business and I’m looking forward continuing to gaining the benefit of other members valuable industry experience to add to my own.

- Jeffrey Mishkin, IFMA Member since 2017

IFMA Allows Me to Engage with the Best of What the FM Industry has to Offer

Membership in IFMA has granted me access to valuable industry information through industry publications, case studies and thought provoking new concepts or approaches. IFMA Conference participation, whether as a presenter, moderator or attendee, has put me in the path of inspiring keynote speakers, education sessions & facility tours with vendor expo access to top vendors. Developing long lasting FM peer to peer relationships worldwide affords camaraderie and information exchange. IFMA provides the vehicle for me to influence our industry and profession by sharing my personal FM experiences and volunteering for IFMA sponsored initiatives.

- Peter Stroup, IFMA Member and Thought Leader since 2006, Director of Facilities at Harvard Medical School, Principal at SAGE International FM

FM Turns Entrepreneur By Leveraging IFMA Membership Benefits

Since I first joined IFMA, I experienced a dramatic growth in my personal and professional life as I expanded my network of people who have guided me in deepening my insights about the industry. Attending chapter meetings, World Workplace and Facility Fusion conferences afforded me fresh and relevant perspectives about the built environment which I found helpful and useful in delivering better solutions to the people whom we serve. I founded Clean Innovation, later rebranded into Impec Group, noting that the knowledge and relationships built over the years with our active involvement with IFMA helped fuel our growth, for which we are forever grateful. Impec Group continues to grow through acquisition of other firms looking forward to expanding its offering not only in California, but in other states as well.

- Raffy Espiritu, IFMA Member since 2000
