

# Coronavirus Disinfection Program Brought to You

## ISS and Evaclean

ISS partnered with Evaclean to deliver an infection prevention program to kill Coronavirus (COVID-19) making your workplace healthier, improving productivity and easing your mind

## Sanitization

The system sanitizes surfaces by spraying a disinfecting mist which electrostatically attracts to surfaces like a magnet

## H<sub>2</sub>O

The sprayer uses tap water and PURTABS to disinfect with hypochlorous acid resulting in a colorless, odorless, and environmentally friendly solution

**Our teams are ready to disinfect your facility now**

# Evaclean Stops Coronavirus (COVID-19)

Evaclean's NaDCC based hypochlorous acid chemistry is registered by the EPA at the highest classification of disinfectants, recommended by the CDC and WHO to treat emerging pathogen threats like Coronavirus (COVID-19), Candida Auris, and any future threats not yet identified.

**4** Time it  
takes to kill  
**MINS** C Diff.

**KILLS** Such as cold & flu,  
**INFECTIOUS** Norovirus, Hand Foot  
**DISEASES** & Mouth, Measles,  
MRSA, etc.
