The 2017-18 fiscal year (July 1, 2017 through June 30, 2018) was for IFMA – as for the facility management industry at large – a time of significant change.

Despite challenging market conditions, from the impacts of natural disasters to industry disruptions such as the collapse of UK-based FM service provider Carillion, IFMA is on the right path to represent and advance the profession.

We’ve done so this year by making possible the release of global industry standards via the International Organization for Standardization (ISO), which IFMA supports directly as administrator for the U.S. FM technical advisory group. In addition to ISO standards, IFMA has continued developing guidance for the profession through our collaboration with the Royal Institution of Chartered Surveyors (RICS), releasing documents such as the Strategic FM Framework.

Launched in 2016, the RICS collaboration allows us to maintain ownership of existing intellectual property – such as our FM credentials – but gives us shared means to develop new resources for the industry. It also allows IFMA members to tap into the RICS network of professionals from across the life cycle of the built environment to ensure FM has a seat at the table from design through disposition.

Last fiscal year we reported the launch of our FM Research and Benchmarking Institute (RBI), as well as a new organization dedicated to smart building technology: the Built Environment Technology Association (BETA). RBI continues to produce in-depth FM research, such as a new report on operations and maintenance, while BETA is working to refine its go-to-market strategy as a think tank for companies on the leading edge of smart buildings. In addition, our regional advisory boards – Europe, Americas and Asia-Pacific – are now in their second year of providing location-specific insights to our global board.

To support these initiatives, in FY18 we undertook an extensive change management process called Appreciative Inquiry (AI), which engages input from all organization stakeholders to envision a desired future state and determine steps to achieve it. Through AI, we identified shared goals for IFMA’s future: sharpening FM skills, providing an exceptional member experience, increasing visibility of FM and equipping the industry to lead innovation. These themes have informed our organizational strategy and will shape our activities over the next several years.

We also saw change in the executive leadership on staff, including the departure of CEO Tony Keane in May 2018. I will continue to work with the executive committee of the board (chair, vice chair and second vice chair) in FY19 to identify the right fit to fill this role and lead the association toward the goals of our strategic plan.

Membership by the numbers

IFMA members are individuals from around the world with a professional interest in facility management. Whether they’re students, practicing facility managers at any stage of their career or suppliers of products and services that support the industry, IFMA members represent a highly connected community dedicated to solving shared challenges and advancing the profession.

In 2017-18, IFMA added five new components, while net membership remained steady with the prior fiscal year.

**KEY MEMBER STATS**

- 23,504 total members
- 6,425 new members
- 108 countries
- 68% U.S. Members
- 32% Non-U.S. Members

**COMPONENT GROUPS**

IFMA has three types of networking groups, collectively known as components:

1. Location-based chapters to connect members within a given region;
2. Industry-specific councils to connect members who manage the same type of facility;
3. Topic-focused communities to connect members with an interest in a specific aspect or core competency of FM practice.

**FIVE NEW COMPONENTS FORMED**

- Guangzhou (China) Chapter, July 2017
- Retail Council, July 2017
- Chennai (India) Chapter, February 2018
- Chaffey College (U.S.) Student Chapter, February 2018
- UK Chapter, March 2018

**MEMBERSHIP SERVICES**

- Average response time to new email inquiries: 0.74 business day
- Number of thank-you cards mailed to members: 1,131

IFMA FY18 Annual Report
Component leaders are members who volunteer their time to guide IFMA’s networking groups. IFMA staff has a team dedicated to assisting these leaders with needs related to managing component operations.

In 2017-18, staff increased the focus on providing tools and training for volunteer leaders:

- Centralized management of U.S. chapter insurance to relieve administrative burden on each individually incorporated chapter entity
- Held monthly webinars, including virtual town halls and best practice sharing sessions on topics from fundraising to providing IFMA training courses
- Conducted regional chapter leader orientation and training in Atlanta, Chicago and New York
- Launched Race to Charlotte monthly activity contest for components leading up to World Workplace 2018 to increase engagement

New benefit for members:

Engage discussion platform

In July 2017, IFMA unveiled Engage, an online discussion forum and resource sharing platform exclusively for members. In addition to highly active posting and comment threads, the site regularly spotlights individual members to share their unique FM journeys and IFMA stories.

- 42,658 total logins
- 11,930 library downloads
- 3,793 total posts
- 829 new discussion threads

SPECIAL HONORS

Each chair of IFMA's global board of directors may opt to award a discretionary citation to one or more individuals for outstanding contributions to the association, the profession and the board of directors.

- **2017 CHAIR’S CITATION – Kate North**

Fellowship is the highest honor bestowed by the association. The Fellowship program was established in 1992 to recognize members who have distinguished themselves by achievement in and around IFMA and the field of facility management.

- **2017 CLASS OF IFMA FELLOWS**
  - **RICK COREA**, IFMA Fellow
  - **COLLINS OSAYAMWEN**, MSc., CFM, FMP, IFMA Fellow
  - **JAMES P. WHITTAKER**, P.E., CFM, CEFP, FRICS, IFMA Fellow
As leaders in their respective industries, IFMA Corporate Sustaining Partners (CSPs) are constantly innovating. These best-in-class organizations make a substantial investment in the facility management community, contributing more than half a million dollars annually to the association.

As advisers, topic experts and change leaders, they are committed to the success of the professionals they support. To help IFMA professional members make informed decisions about their facilities, CSPs:

- share survey and research results;
- share information on new methods and groundbreaking products;
- contribute industry white papers and case studies to IFMA’s Knowledge Library;
- contribute articles to FMJ magazine;
- partner with IFMA to fund research, benchmarking and educational projects.

IFMA FY18 Annual Report
FY18 was a year of building momentum, particularly for the FMP, as IFMA continues to drive increased credential activity.

After last fiscal year’s transition to house educational programs on a new platform shared by IFMA and RICS at www.fm.training, IFMA focused on increasing training website traffic, updating the CFM Exam and continuing to raise the profile of the IFMA-RICS suite of credentials and professional qualifications.

This was supported by findings indicating the lifetime value of IFMA credentials from the return on investment research study titled, “Evaluating the Value: IFMA Facility Management Credentials.”

Global Standards

IFMA is a key contributor to development of global standards for FM as administrator for the International Organization for Standardization (ISO) U.S. Advisory Group for Technical Committee 267 on behalf of the American National Standards Institute.

- Supported publication of two new international standards:
  2. ISO 41001 FM – Management systems – Requirements with guidance for use (published April 2018 with U.S. convenorship)

- Supported proposal of two additional FM standards, both of which are approved for development:
  - ISO 41014 – Facility Management – Development of facility management strategy
  - ISO 41015 – Facility Management – Influencing behaviors for improved facility outcomes and user experience

- Formed working group to draft new ISO 41015 standard: Working Group 5 – Human Experience

Government Relations

IFMA continues to effectively inform and shape FM-related public policy around the world with involvement from the Government Affairs Committee.

In FY18 IFMA assisted the U.S. government in better tracking and reducing the size of its real estate portfolio, worked with the European Union to identify FM as an effective tool in reducing energy use and focused on growing FM-related workforce development programs around the globe.

FY18 HIGHLIGHTS

  - Result of seven year effort by IFMA
- Inclusion of FM training language in House Resolution 4243 U.S. Department of Veterans Affairs Asset and Infrastructure Review Act (November 2017)
- IFMA Second Vice Chair Lynn Baez testimony before U.S. House Committee on Transportation and Infrastructure (April 2018)
- Worked with international chapters to increase recognition of FM profession from governments around the world
- Expanded use of IFMA state and local advocacy programs
- Continued leadership of the U.S. High Performance Buildings Congressional Caucus Coalition
- Continued collaboration with the Illuminating Engineering Society of North America, the U.S. General Services Administration and the U.S. Department of Energy on the Interior Lighting Campaign, an initiative to encourage FMs to implement high-efficiency interior lighting solutions

Appreciative Inquiry

WHAT IS APPRECIATIVE INQUIRY (AI)?

- Strengths-based organizational change approach
- Enacts change by identifying and leveraging an organization’s positive core (rather than focusing on overcoming weakness)
- Seeks input from all stakeholders to collectively envision a desired future state

WHY AI?

Following several bold changes enacted by the global board and senior staff, other IFMA stakeholders – including members, Fellows, component leaders and staff – expressed the desire to be able to provide increased input on the association’s direction.

AI TIMELINE

JULY 2017
Global Board Chair Bill O’Neill takes office

AUG. 22-23
Staff and Fellows/Board Workshops
Houston, Texas, USA

- Attendees paired up to share high point stories
- Small groups use high points to identify common themes
- Attendees draft stakeholder interview questions for core topics identified
  - Fellows/Board prefer staff questions

AUG. 24
9 Stakeholder Groups Identified:
1. Staff
2. Board of directors
3. Fellows
4. Chapter leaders
5. Council leaders
6. Community leaders
7. Professional members
8. Associate members
9. Instructors

Stakeholder Questions Finalized
- 70% of questions originated with staff

FOUR-STEP PROCESS:

1. Discovery
2. Dream
3. Design
4. Destiny

IFMA FY18 Annual Report
IFMA is the world’s largest and most widely recognized international association for facility management professionals, supporting 24,000 members in more than 100 countries. This diverse membership participates in focused component groups equipped to address their unique situations by region (136 chapters), industry (16 councils) and areas of interest (six communities). Together they manage more than 78 billion square feet of property and annually purchase more than US$526 billion in products and services.

Formed in 1980, IFMA certifies professionals in facility management, conducts research, provides educational programs, content and resources, and produces World Workplace, the world’s largest series of facility management conferences and expositions.
